WHAT IS COVERED

LIMITED MILEAGE WARRANTY

If within five (5) years from the date of installation, the tire wears evenly across the tread down to the tread wear indicators (2/32nds of an inch of tread remaining) before providing the minimum warranted miles of service as indicated by the vehicle odometer, a credit will be issued toward the purchase of a new tire on a pro-rated basis to the actual mileage received. The mileage received will be based on the current vehicle mileage on the odometer compared to the vehicle mileage at the time of new tire installation, which must be listed on the original tire invoice and the new tire invoice.

Tires which wear out evenly before delivering the warranted mileage will be credited (on a pro-rated basis) only if:

- You are the original purchaser of the tires and you still own the vehicle on which the tires were originally installed. The tires must have only been used on that vehicle.
- The tires have been rotated and inspected by any authorized tire dealer every 5,000 miles, and the mounting and rotation service records have been fully completed and signed by the service provider (the form is available at [[mounting and rotation form](#)]). Improper or incorrectly performed maintenance or repair that causes damage to the tires may void this warranty.
- Provide pictures of current tread showing that the tire tread is well aligned and evenly worn.
- The completed service record form, tire installation information form, and the original invoices are presented to Horizon Tire, or its authorized tire dealer at the time of mileage warranty claim. These forms can be found on our website at www.horizontire.com.
