WHAT IS NOT COVERED

This Standard Limited Warranty does not cover and Horizon will not adjust any of our products against road hazards, including, but not limited to: cuts, punctures (whether repairable or not), bruises, tears, impact breaks, etc. Products are also not warranted if damaged due to misuse, including, but not limited to, improper installation or mounting, misapplication, improper repair, overloading, improper inflation, excessive speed, racing, drifting, unintended off-road use, stone drilling, improper use of chains, use of non-approved or non-standard rims (as determined by the Tire and Rim Association), continued operation while severely under-inflated, misalignment or imbalance of wheels/rims, defective brakes, abuse, collision, willful damage, oil or chemical action, improper storage, excessive heat, vandalism, and water or other material entrapped inside the product.

Specific Tire Limitations and Exclusions

- Tire adjustments will be based on the remaining tread depth. Tires worn to 2/32" tread depth or to the treadwear indicator bars are deemed to have served their full useful tread life and are not adjustable for any reason.

- Tires returned for out-of-round or ride disturbance conditions within the first 2/32" of treadwear will be credited for 100% of their value based on the average purchase price for the last six months. Tires returned for out of round beyond the first 2/32" of wear will not be considered for adjustment.
- Tires that do not have a Department of Transportation (DOT) number; tires that fail due to the addition of aftermarket materials (tire fill, sealant, balancer, etc.); tires that have been modified by notching, buffing or cutting; tires returned for weather/ozone cracking after two (2) years from date of purchase; tires with production dates six (6) years and older.

LIMITED MILEAGE WARRANTY

If within five (5) years from the date of installation, the tire wears evenly across the tread down to the tread wear indicators (2/32nds of an inch of tread remaining) before providing the minimum warranted miles of service as indicated by the vehicle odometer, a credit will be issued toward the purchase of a new tire on a pro-rated basis to the actual mileage received. The mileage received will be based on the current vehicle mileage on the odometer compared to the vehicle mileage at the time of new tire installation, which must be listed on the original tire invoice and the new tire invoice.

Tires which wear out evenly before delivering the warranted mileage will be credited (on a pro-rated basis) only if:

You are the original purchaser of the tires and you still own the vehicle on which the tires were originally installed. The tires must have only been used on that vehicle.

- The tires have been rotated and inspected by an authorized tire dealer every 5,000 miles, proof of receipt required. Improper or incorrectly performed maintenance or repair that causes damage to the tires may void this warranty.
- Provide pictures of current tread showing that the tire tread is well aligned and evenly worn.
- The original invoices are presented to Horizon Tire Warranty Department, or its authorized tire dealer at the time of mileage warranty claim.
